

Viatriis 2021 Sustainability Report Highlights

We work to empower people worldwide to live healthier at every stage of life.

Sustainability is fundamental to the Viatriis mission. We strive to advance responsible and sustainable operations and leverage our collective expertise to empower people worldwide to live healthier at every stage of life, recognizing that our actions affect the stakeholders and communities we serve.

As a signatory to the UN Global Compact (UNGC), we believe companies can be a force for good, and it is essential that we do our part to help enable potential solutions to some of society's most pressing challenges. As part of advancing our commitments and work in 2021, we endorsed the Women's Empowerment Principles and signed on to the UNGC CEO Water Mandate. To further progress our work, we have set initial companywide goals in the areas of patient access, the environment, and diversity, equity and inclusion (DE&I), presented on the next page.

STAY CONNECTED:

Our Initial Sustainability Goals

These priority areas and initial goals support our sustained operations and relevance, our contribution to advancing the UN's Sustainable Development Goals for 2030, and help us proactively address evolving expectations from stakeholders.

ACCESS

- Provide antiretroviral (ARV) therapy equivalent to a total of 30 million patients, including more than 2 million children living with HIV/AIDS, between 2022 and the end of 2025.
- Impact 100 million patients via healthcare professional (HCP) education and outreach regarding prevention, diagnosis and treatment options for cardiovascular disease, diabetes, cancer and other important chronic conditions to improve outcomes through the NCD Academy by the end of 2025.

DE&I

- Engage at least 90% of employees globally on diversity, equity and inclusion learning by the end of 2023.
- Increase diversity in management:
 - Increase Women's representation in senior management globally to at least 35% by the end of 2027.
 - At least double Black representation in all management levels in the U.S. by the end of 2027.
 - At least double Hispanic/Latinx representation in senior management in the U.S. by the end of 2027.

ENVIRONMENT

- Reduce absolute Scope 1 and 2 greenhouse gas (GHG) emissions 42% by 2030¹ and reduce Scope 3 GHG emissions covering purchase goods and services, capital goods, fuel and energy related alternatives and upstream transportation and distribution 25% by 2030.⁴ These near-term targets have been submitted to the Science Based Targets initiative (SBTi) for review and validation.
- Perform water risk assessments for all locations in high or extremely-high water risk areas as identified by the World Resource Institute and identify appropriate water conservation initiatives by 2025.
- Achieve a 50% increase in the number of zero landfill locations by 2030.⁴

Partnerships⁵

Business partnerships, memberships, and philanthropic collaborations help us reach patients and communities worldwide.

Awards and Recognitions

Viatri is a signatory to the UN Global Compact and supports the global sustainable development agenda for 2030.

ABOUT VIATRIS

Viatri empowers people worldwide to live healthier at every stage of life. We provide access to medicines, advance sustainable operations, develop innovative solutions and leverage our collective expertise to improve patient health. We believe in healthcare not as it is, but as it should be. Because of our unwavering belief that better access leads to better health, we leverage our best-in-class manufacturing and scientific expertise and proven commercial capabilities to bring quality medicines to patients when and where they need them.
